An Effective Law Enforcement
Tool for Conducting Prescription
Fraud Investigations

CPMRS increases investigation efficiency

For prescription fraud investigations, CPMRS:

- Reduces some of the physical legwork involved in an investigation.
- Exposes potential doctor/pharmacy shopping and other fraudulent behaviors.
- Provides automated patient controlled-substance history reports online 24/7.
- Offers ability to request a prescriber's controlled substance prescribing history report online 24/7.
- Enables law enforcement to detect suspicious activity quicker.
- Saves investigative hours, transportation and other departmental resource costs.
- Allows law enforcement to post alerts on possible suspects.

CPMRS: What is it?

The CPMRS is a web-based application that allows authorized law enforcement personnel to access a patient's controlled-substance (Schedule II – V) prescription history, and/or a prescriber's controlled substance prescribing history online 24/7. This secure online system can be accessed by any computer with an internet connection. No special software or hardware is needed.
