(2009)
Connecticut YSAB

The Connecticut Youth Suicide Advisory Board (YSAB) was established within the Department of Children and Families. It is charged to increase public awareness about youth suicide and to make recommendations to the Commissioner regarding the prevention of youth suicide.

The Problem

For youth 10-24 years old, suicide is the third leading cause of death, behind unintentional injury and homicide (National Center for Injury Prevention and Control Injury Fact Book).

More than 33,000 suicides occurred in the US in 2009. (NCIPC) In Connecticut, from 2000-2007, suicide was the third leading cause of death among Connecticut youth ages 15-19. (CDC WISQARS)

Results from the 2009 Connecticut School Health Survey report that among high school students:
- 25% felt sad or hopeless for more than 2 weeks
- 14.1% seriously considered attempting suicide
- 7.4% actually attempted suicide

Risk and Protective Factors

Risk factors are stressful events, situations and/or conditions that are associated with greater potential for suicide and suicidal behavior. According to the Surgeon General, these include but are not limited to:
- Alcohol/substance abuse
- Mental health issues, particularly mood disorders such as depression and bipolar disorder
- Traumatic loss—death or suicide of a loved one
- Impulsive and/or aggressive tendencies
- Significant disappointment, humiliation or loss of status (e.g., break-up, or arrest)
- Past Suicide Attempts
- Easy access to lethal methods, especially guns

Protective factors reduce the likelihood of suicide. These include but are not limited to:
- Easy access to a variety of effective clinical interventions and support for help seeking
- Family and community support
- Skills in problem solving, conflict resolution, and nonviolent way of handling disputes
- Cultural and religious beliefs that discourage suicide and support instincts for self-preservation

Important Numbers

- Suicide Hotline
  1-800-273-TALK (8255)
- 911
- 2-1-1 (Infoline: Suicide/crisis, information and referral line)

Resources That Can Help

- Family Member/Friend
- Religious Leader
- Teacher/Guidance Counselor
- 211 Infoline (Suicide/crisis, Emergency Mobile Psychiatric Services, information and referral line)
- Employee Assistance Program
- Current Clinician and/or Psychiatrist
- Emergency Room
